

X-code Basic Training

X-code Basic Training

Pembelajaran jaringan komputer dan ethical hacking.

Perbedaan mendasar basic training dan private training adalah materi yang dibatasi karena terbatasnya waktu training hanya 1 hingga 2x pertemuan.

Waktu pertemuan: 1-2x pertemuan

Mikrotik dasar

1x pertemuan

Dasar jaringan

- Dasar jaringan
- Subnet Mask

Mikrotik

- NAT
- DHCP Client
- Port Forwarding
- DHCP Server
- SNTP Client
- Blokir situs
- Simple Queue

IDR 300k

Mikrotik hotspot

Dasar jaringan

- Dasar jaringan

- Subnet Mask

Access point

- Setting access point

Mikrotik

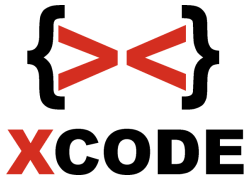

- NAT

DHCP Client

- DHCP Server

- Billing hotspot non radius

IDR 300k

Linux dasar untuk dasar server

1x pertemuan

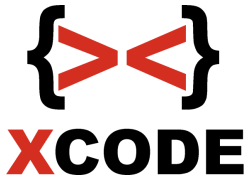

Dasar jaringan

- Network fundamental & Subnet Mask

Mikrotik

- Dasar shell bash
- Setting jaringan
- Managemen User & Group
- File Security, chown, chgrp, chmod (numeric coding, letter coding)
- SSH Server
- Pengawasan user
- Apache Server & MySQL Server
- SFTP Server

IDR 300k

Linux dasar untuk router

1x pertemuan

Dasar jaringan

- Network fundamental

- Subnet Mask

Linux

- Dasar shell bash

- Setting jaringan

- NAT

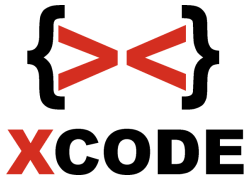

- Port Forwarding

- Bandwidth managemen

- Squid Proxy

- IP Network Monitoring

IDR 300k

X-code Basic Training ~ Network hacking

1x pertemuan

Dasar jaringan

- Dasar jaringan

- ARP

- Subnet Mask

Network hacking

- Dasar hacking server

- Dasar buffer overflow

- Brute force

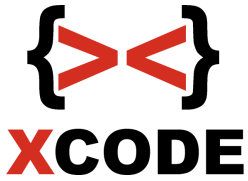

- Denial of Service

- ARP Spoofing

- Client side attack

- Dasar backdoor windows (Msfvenom)

IDR 300k

X-code Basic Training ~ Network hacking & Wireless hacking

1x pertemuan

Dasar jaringan

- Dasar jaringan dan Subnet Mask

Network hacking

- Dasar hacking server
- Dasar buffer overflow
 - Brute force
 - Denial of Service
 - ARP Spoofing
 - Client side attack
- Dasar backdoor windows (Msfvenom)

Wireless hacking

- Bypass mac filtering, Jamming, Linset

IDR 450k

X-code Basic Training ~ Ethical Hacking

2x pertemuan

Dasar jaringan

- Dasar jaringan, Subnet Mask

Network hacking

- Dasar hacking server, Dasar buffer overflow, Brute force, Denial of Service

- ARP Spoofing

- Dasar backdoor windows (Msfvenom)

Web Hacking

- Dasar Cross-site Scripting, Dasar Local File Inclusion, Dasar SQL Injection, Dasar Remote File Inclusion, Rooting

Wireless hacking

- Bypass mac filtering, Jamming, Linset

IDR 600k
